SUPPLEMENT TO REPORT NO.

- The Danubiul, Energia and LAN Shipyards in Braila were merged into the Viitorul Shipyard in the letter part of 1950.
- Under construction at the yards April 1951, were 25X1X four minesweepers, bearin; the numbers 74, 75, 76, and 77. Number 74 will be completed in August 1951, number 77 in December 1951, and the remaining two at a later unknown date. Each vessel is powered by two 800 horsepower engines of Soviet make. Original plans called for Rumsmian-built engines by the Progresul factory, but attempts to manufecture these were unsuccessful and the project was atondoned. Each minesweeper mounts three 108 mm. caliber guns, two anti-sircraft guns and two machine guns.
- Scheduled for completion in the latter part of May 1951 is a torpedo boat. If performance tests are favorable, 60 will be built in the next five years. The vessel is approximately 38 meters long, and is capable of 35 miles per hour speed. It has two torpedo tubes.
- 4. Also under construction are six 1,000 ton Soviet-type lighters. These are 72 meters long and lh meters side with double bottoms, and can carry petroleum products and vehicles.
- 5. Early in 1951, an order was received at Viitorul for six dredges and 20 iron boats. These are destined for use on the Danube-Black Sea canal project. 25X1C

Efthimics Tselentis stated that there are four petroleum pipelines which start at Ploesti and terminate at Giurgiu. The oil flows at the rate of 2400 Tankers taking on petroleum discharge tons per hour at Reni, where there are eight or ten storage depots. there is a petroleum pipeline which extends on to
